3. Equations

Equations should be centred between margins and with the number placed in parentheses at the right margin.

4. Tables and Figures

All tables and figures should be numbered consecutively with Arabic numerals. All photographs, schemas, graphs and diagrams are to be identified as figures. Titles should describe the content of the tables (figures) as briefly as possible. The title should be placed above tables (figures) and centered. Leave one line space between the heading and the tables (figures). The source should be indicated below tables (figures) and between margins. Type the essential footnotes at the bottom of the table with lowercase letters. Tables and figures must be embedded into the text and not supplied separately.
